After getting the sources in one of the ways listed above, you should have a look at the build instructions. See the changelog for what has changed. By downloading, you agree to the terms and conditions of the respective license. VirtualBox older builds The binaries in this section for VirtualBox before version 4.0 are all released under the VirtualBox Personal Use and Evaluation License (PUEL). Please install the same version extension pack as your installed version of VirtualBox. VirtualBox 6.1.32 Oracle VM VirtualBox Extension Pack Support for USB 2.0 and USB 3.0 devices, VirtualBox RDP, disk encryption, NVMe and PXE boot for Intel cards. VirtualBox is a powerful x86 and AMD64/Intel64 virtualization product for enterprise as well as home use. VirtualBox is a community effort backed by a dedicated company: everyone is encouraged to contribute while Oracle ensures the product always meets professional quality criteria. New November 22nd, 2021VirtualBox 6.1.30 released! Oracle today released a 6.1 maintenance release which improves stability and fixes regressions. VirtualBox Sources The VirtualBox sources are available free of charge under the terms and conditions of the GNU General Public License, Version 2. Here you will find links to VirtualBox binaries and its source code. News Flash Important January 13th, 2022We're hiring! Looking for a new challenge? The SHA256 checksums should be favored as the MD5 algorithm must be treated as insecure! SHA256 checksums, MD5 checksums Note: After upgrading VirtualBox it is recommended to upgrade the guest additions as well. Please also take a look at our licensing FAQ, in particular regarding the use of the name VirtualBox. Presently, VirtualBox runs on Windows, Linux, Macintosh, and Solaris hosts and supports a large number of guest operating systems including but not limited to Windows (NT 4.0, 2000, XP, Server 2003, Vista, Windows 7, Windows 8, Windows 10), DOS/Windows 3.x, Linux (2.4, 2.6, 3.x and 4.x), Solaris and OpenSolaris, OS/2, and OpenBSD. We're hiring a System Administrator/Quality Engineer (Germany). By downloading from the below links, you agree to these terms and conditions. VirtualBox binaries By downloading, you agree to the terms and conditions of the respective license. The Extension Pack binaries are released under the VirtualBox Personal Use and Evaluation License (PUEL). Not only is VirtualBox an extremely feature rich, high performance product for enterprise customers, it is also the only professional solution that is freely available as Open Source Software under the terms of the GNU General Public License (GPL) version 2. svn co vbox This is the current development code, which is not necessarily stable. View the latest source code changes Checking out from our Subversion server. Please also use version 5.2 if you still need support for 32-bit hosts, as this has been discontinued in 6.0. Version 5.2 will remain supported until July 2020. More information... Please also use version 6.0 if you need to run VMs with software virtualization, as this has been discontinued in 6.1. Version 6.0 will remain supported until July 2020. See the Changelog for details. You might want to compare the checksums to verify the integrity of downloaded packages. If you're looking for the latest VirtualBox 5.2 packages, see VirtualBox 5.2 builds. Important May 17th, 2021We're hiring! Looking for a new challenge? If you're looking for the latest VirtualBox 6.0 packages, see VirtualBox 6.0 builds. VirtualBox is being actively developed with frequent releases and has an ever growing list of features, supported guest operating systems and platforms it runs on. Pre-built VirtualBox VMs There are some pre-built VMs designed for developers and the curious over on the Oracle Tech Network site. If, however, you would like to take a look at it without having to install the whole thing, you also access it here: User Manual (HTML version) You may also like to take a look at our frequently asked questions list. As of VirtualBox 4.0, the Extension Pack is released under the VirtualBox Personal Use and Evaluation License and the other packages are released under the terms of the GPL version 2. New October 19th, 2021VirtualBox 6.1.28 released! Oracle today released a 6.1 maintenance release which improves stability and fixes regressions. VirtualBox 6.1.32 platform packages The binaries are released under the terms of the GPL version 2. New January 18th, 2022VirtualBox 6.1.32
